Alex

Alex studied IELTS to prepare for future enrollment in overseas universities. While he already had a history of taking the IELTS and started from a high level of 6.0, he struggled to surpass the barrier from 6.0 to 7.0. His challenge lay in achieving scores of 6.5 or above in Speaking and Writing. Utilizing the JIC program's emphasis on Writing and Speaking, along with faithfully incorporating advice from instructors and consultants, he achieved his goal of reaching 7.0 in just 4 weeks. Remarkably, in the IELTS official exam taken before graduation, he **achieved an impressive score of 8.0 points.**

Student Support System

At JIC, we believe that continuous guidance and personalized support are essential for student success. Our Student Support System ensures that every learner receives regular feedback, academic guidance, and personal mentorship throughout their journey. With multiple layers of consultation, students are provided with the right support at the right time to help them adapt, improve, and achieve their goals.

**Initial Consultation**

Conducted by the Campus Chief, this session takes place during the student's first week to check on their adjustment, initial progress, and overall well-being. It helps ensure a smooth transition into their learning environment.

**Mentoring**

Each student is paired with a dedicated mentor teacher, who gathers feedback from their other instructors. Every Friday, the mentor meets with the student to discuss academic performance, personal concerns, and motivation, offering weekly guidance until graduation.

**General Consultation**

Led by the Head Teacher, this is an on-demand consultation available anytime during office hours. Students can discuss academic concerns, request subject or teacher changes, or seek urgent advice to optimize their learning experience.

**Personal Coaching**

A fortnightly session with the Academic Director (for IELTS) or ESL Coordinator (for ESL), focusing on academic performance. Sparta students receive personalized feedback, strategic learning recommendations, and progress assessments to help them reach their target scores.

**Graduation Consultation**

Before leaving JIC, students meet with the Campus Chief for a final review of their learning experience, achievements, and overall growth, ensuring they leave with valuable insights and a strong foundation for their future.

With this structured multi-level support system, JIC ensures that students receive consistent guidance, academic monitoring, and personalized mentorship—helping them thrive in their English learning journey.

Speaking Challenger Program

Speaking Challenger Conquered

Yui

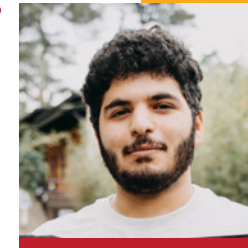

Pro Challenger

I am studying English in JIC because I plan to go to Australia on my working Holiday. I applied for the Challenger program to improve my English skills by having conversations with my friends from other countries. Even when I went outside school, I tried to speak only in English with my batchmates and tried to think of sentences instead of just words to communicate. Thanks to this, my room mate told me that I could form sentences even though she used to speak in single words, and she felt that I had grown, which made me very happy.

Ahmedtaha

Pro Challenger

Being a Challenger made me sad and happy. Although I couldn't talk with my family, particularly my wife, and my friends for long periods since I shouldn't speak Arabic, it was acceptable because being a challenger motivated me to use English more. Even simple things like explaining to our taxi driver where we want to go because my friend that time had a hard time explaining it too. This made me realize English helps us overcome predicaments in our daily lives. Therefore, the Challenger program is a good way to level up our English.

Sarah & Thomas

Married Couple
Rookie Challengers

English was a language that was to farfetched for me; however, I always had the mindset to get over it. Before the end of 5 months of study, my wife had mentioned she wanted to challenge the Challenger. I was still hesitant, but we ended up doing it together. We tried using English in our daily conversations, even if it was just between us. Many students also cooperated, and I believe this situation helped us to overcome the challenge safely without violations. It was good we became more familiar with English.
